## Capabilities Statement

eTechnology Consultants trainers and consultants have more than thirty years of experience working with businesses and schools to provide a variety of training methods, educational and business consulting as well as software and hardware support for our clients. Our experience includes time spent as corporate and international trainers, K-12 school educators and consultants, adjunct faculty for colleges and universities and elearning instructional developers.

### Advantages:

- Extensive training curriculum library for developing client training.
- Experience with both face-to-face and eLearning training and curriculum development
- Trainers and consultants with regional, national and international experience.
- Topic specific trainers in a variety of disciplines
- Flexible curriculum development

### Training Options

- Live online e-workshops with one of our trainers available for real time Q & A
- Live face-to-face training at your site
- Live face-to-face training at one of our partner training locations near you
- On demand training through our learning management system to fit your schedule
- Train the trainer programs to train your staff to help your people at your site
